### FIRESHARK GAMING PUNCH CARDS

#### How it Works:

Bring your Punch Card to any of these events and each circle that is NOT already punched out is worth 30min of gameplay in the Fireshark Theater. Valid for both the Fireshark Truck and the Fireshark Theater inside the Fireshark Gaming retail location on 21<sup>st</sup> & Greenwich in Wichita. Time may be limited due to the nature of the event and capacity restraints. Punch cards are valid for not only the scout but also any friends and family they would like to share it with. For example, a scout and a parent would like to play together, they play for 15min that would equal one punch (2 players at 15min each). Another example would be a scout and his friend play together for 30min that would equal two punches (2 players at 30min each). Players must use at least one punch per visit (30min of gameplay) no half punches.
